Education

Jose Rizal University **2024 – Expected 2028**
Bachelor of Science in Information Technology *Mandaluyong, Philippines*

Professional Experience

Webpuppies Digital **Aug. 2026 – Present**
AI Software Engineering Intern *Singapore (Remote)*
- Architected multi-channel AI document generation agents across Discord and WhatsApp using Amazon Bedrock, executing automated client requirement interviews and on-demand PDF report synthesis.
- Configured cloud infrastructure on an AWS EC2 Ubuntu instance with least-privilege AWS IAM roles, eliminating hardcoded credentials for secure Bedrock and service-level API communication.
- Integrated Amazon SES and webhook pipelines into the Webpuppies HQ employee portal to trigger automated, real-time email dispatches and employee skills-to-project credential matching.

PwC Philippines **June 2026 – Aug. 2026**
Digital Solutions Development Trainee *Makati, Philippines*
- Developed an enterprise ESG assessment dashboard on Microsoft Azure featuring role-based workflows, structured compliance evaluations, and automated sustainability metrics aggregation.
- Engineered a generative AI pipeline utilizing Azure AI Foundry and Azure AI Search (RAG) with Ministral and Gemma models to automate ESG recommendations and document verification.

UnionDigital Bank **Nov. 2025 – Apr. 2026**
Data Engineer Intern, Data Architecture and Engineering *Pasig, Philippines*
- Designed source-to-target mapping (S2TM) and API ingestion workflows for AppsFlyer, improving customer acquisition tracking accuracy by 15% and capturing a +225% surge in customer onboarding.
- Architected end-to-end API and CSV ingestion pipelines for Zendesk, App Store, and Google Play Console, validating dataset growth representing +330% engagement.
- Implemented SQL data-quality suites validating over 1.4M+ records, surfacing a 9% anomaly rate in malformed fields and invalid timestamps directly to the Data Governance Council.

Leadership & Fellowships

AWS Student Builder Group — JRU **May 2026 – Present**
Student Builder Group Leader & CEO *Mandaluyong, Philippines*
- Oversee chapter operations, hosting cloud and technology workshops, leading 30 students in technical projects(Organizational Website, AI Task Allocation Agent, Event Registration Website, and AWS Cloud Practitioner Mobile Quiz App) and managing industry sponsor coordination.

AI for Asia **July 2026 – Present**
AI for Asia Fellow (1 of 10 PH Representatives) *Regional*
- Selected as 1 of 10 national delegates; completed advanced AI solution development curriculum and achieved Capstone with Distinction.

Certifications & Credentials

Claude Certified Architect - Professional | AWS Certified AI Practitioner | AWS Certified Cloud Practitioner | Google AI Professional Certificate | DataCamp Associate Data Engineer | Certiport IT Specialist: Java & Databases | CompTIA IT Fundamentals+

Projects

PhytoQuest — Botanical Research ML System | *Laravel, Python, FastAPI, BioCLIP, PostgreSQL*
- Engineered a location-aware botanical platform featuring an asynchronous Python microservice that utilizes the BioCLIP foundation model to evaluate uploaded images against a 4,100+ species catalogue.
- Implemented real-time WebSocket architecture using Laravel Reverb and database queues to deliver non-blocking identification results and expert review escalations to the web client.

Vento — POS & Inventory Engine | *Go, PostgreSQL, REST APIs, AWS EC2, Docker*
- Engineered a concurrent Go backend deployed on AWS EC2 with PostgreSQL persistence, supporting high-throughput point-of-sale inventory state transitions.

Savie — Automated Finance Agent | *Go, Google Cloud Run, Secret Manager, Telegram API, JWT*
- Deployed a containerized serverless financial tracking agent on Cloud Run secured with JWT auth, Secret Manager, and Google Sheets bidirectional sync.

AutoPili — Intelligent Local LLM Router | *Python, Ollama, MLX, Thompson Sampling*
- Developed an adaptive local LLM routing system that dynamically directs prompts across SLMs using multi-armed bandit (Thompson Sampling) evaluation.

Technical Skills

Cloud & Infrastructure: AWS (Bedrock, EC2, IAM, SES, Lambda, S3, DynamoDB), Microsoft Azure (AI Foundry, AI Search), GCP (Cloud Run), Docker, Vercel
Languages & Frameworks: Go, Python, SQL, Java, Dart, Flutter, React, Next.js, FastAPI, REST APIs, n8n
Data, AI & Security: PostgreSQL, Snowflake, Supabase, RAG Architecture, Local LLMs (Ollama, MLX), ETL, S2TM, JWT, RBAC
